

Poznań, 7 maja 2014

ATERIS SA is business consulting company focusing on business process management and process automation. We are offering software and service solutions for process strategy, design, implementation and control. ATERIS SA is rapidly growing which is why we are looking for an energetic and outgoing **Junior Consultant**. For this position we require:

- Minimum master 's degree
- Fluent English and Polish communication skills (written & spoken). German **would be an asset**.
- Knowledge of Business Process Management
- Ability to identify, model and analyze business processes
- Knowledge of modeling notations such as EPC, BPMN **would be an asset**
- General knowledge of IT systems used within a modern company like CRM, ERP, Workflow, BPMS
- Analytical and problem solving skills
- Conceptual thinking
- Communication, presentation and training skills
- Openness to work with different languages & cultures
- Excellent team work and ability to work in dynamically changing environment.
- Self-motivated, you need to have the natural drive to learn and pick up new challenges

You will be based in Poznań, Poland, but you must be willing to participate in international projects as well. Travel activities can be up to 70% of your time depending on a project (**driver's license is a must**). As a Junior Consultant you will be mainly responsible for delivery of assigned project tasks as well as trainings and presentations.

ATERIS SA is a successful, profitable and strongly expending company providing an environment that enables employees to learn, grow and be successful. We provide:

- An environment that is focused on continuous learning
- Opportunity to train on new products and to develop new personal skills
- Opportunity to develop business management, technical knowledge and sales abilities
- A challenging and interesting work environment with the possibility for interaction with colleagues, customers and partners across the world
- Excellent possibilities to develop yourself and your career
